📧 @ <https://www.linkedin.com/in/sibenson-gautam-701109277/> 📄 @ <https://github.com/Sibenson>

Aspiring Quality Assurance (QA) professional with a background in frontend development and a strong analytical mindset. Eager to apply problem-solving abilities and attention to detail to ensure software quality. Seeking a QA internship to gain experience in software testing, bug tracking, and quality assurance methodologies.

## EDUCATION

### BSc.CSIT

Kathmandu

*New Summit College*

Jul, 2021 - Present

BSc. CSIT (Bachelor of Science in Computer Science and Information Technology) is a four-year undergraduate program that combines computer science theories and IT applications. It focuses on programming, software development, networking, database management, AI, cybersecurity, and more.

## PROJECTS

### Quick Kart – E-Commerce Website [LINK](#)

- Designed and optimized UI/UX with a focus on usability.
- Conducted user testing to identify and resolve UI inconsistencies.
- Ensured the platform met accessibility and responsiveness standards.

## ACHIEVEMENTS

### Idea Pitching Competition

Taking part in an idea pitching competition was an exciting opportunity where I showcased creativity, problem-solving skills, and innovative thinking. It's a platform where individuals or teams can present their unique ideas to a panel of judges, aiming to solve real-world problems or introduce groundbreaking concepts.

### Blood Donation

Taking part in Blood donation was one of the noblest act of humanity. By donating blood, a person can save up to three lives and contribute to the well-being of society. Blood cannot be manufactured artificially; it can only come from volunteers who are willing to give this life-saving gift.

## AWARDS
